

MANY ANTIQUES SHOWN AT DISPLAY SATURDAY

If Miles Standish were still living we feel sure that he would be tempted to give a modern version to his well known dictum and say, "If you want anything, done and done well, let the ladies do it."

Well over a hundred articles were on display at the Everette Home on Saturday at the Antique and Handicraft Tea and Sale of Cooking under the auspices of the United Church Women's Association. The ends of the house were filled with the display—Japan, Sierra Leone, India, Egypt, Malay Peninsula, Russia, Switzerland France and the Old Country.

Among the antiques the oldest article was a watch made by Colonel Lewis and bearing the date 1870, but was written in three figures was about as common as "Mac" among the dais of woodland. Among the rarest was a generous supply from the Great War but there was also a bayonet used in the Crimea and a chest used at Waterloo.

Most forms of handicraft were represented in the display and many of the articles were foreign and antiques, and work of art were numerous. Collections were displayed by Mrs. Macdonald of Strathmore, Mrs. Newman of Calgary and Mrs. Gorrill, Col. Lewis and Adj. Sutherland, and Mr. Salmistrater. And there was scarcely a home in town that did not contribute one of more valuable articles.

Regret has been expressed that it could not have been carried over to the next day. Those who visited the home never realized that the community had these many and valuable pieces and we feel sure that no one would have missed seeing them if it had not been known. The very sorry that space forbids giving a complete list of all exhibits.

OBITUARY

WILLIAM PETTIT

On Wednesday, May 17, a number of Gleichen and Standard pioneers gathered at the Standard cemetery to pay their last respects to Wm Pettit who passed away after a two months illness. Few men have seen the Gleichen better than the late Mr. Pettit, being one of the first of the real cowboys of the district who until the end kept a string of ten saddle horses, and knowing every brand, was a real find to those having stock on the open range. Mr. Pettit was 53 years of age and leaves a wife and three children in Dallas, Texas, to whom the friends here extend sincere sympathy.

MRS. SARAH E. ANDERSON

Mrs. Sarah E. Anderson died Saturday evening at the family residence in Arrowood, at the age of 85 years. Mrs. Anderson had been ailing for many months and her death was not altogether a surprise to her friends and relatives. Her husband, Mr. Anderson, the Arrowood jeweler, survives her. The funeral took place Monday afternoon at 2 o'clock from the Church of the Brethren and interment took place in the Arrowood cemetery. The funeral was in charge of Geo. W. Evans.

MRS. MERELIN PAYNE

Mr. and Mrs. W. D. Trigo received word last Thursday of the death of their daughter, Mrs. Merelin Payne, age 33, in Arizona. Mrs. Payne with her husband and child left more than a year ago for the state of Arizona with the hope that the change of would benefit her health, which it did to a certain extent. Mrs. Payne was born in Blackfoot, Idaho and came to Gleichen with her parents 28 years ago. Besides her husband, child and her mother she leaves three sons, three daughters four sisters, Ruth, Gertrude, Nida and Carol and brother Leslie.

Following a peculiar hobby a man has collected 3000 bricks from some historic building raised to make room for a modern structure. It took 33 years to get these bricks.

PUPILS OF MISS VIOLET HYDE GIVE RECITAL

The Pupils of Miss V. Hyde gave a recital in the I.O.O.F. Hall. Following is the program:

U. Canada.
Title—Santa Claus Guards—Margaret Gorrill, Winnie Gorrill, Elizabeth Gorrill.
Two Little Melodies—Elaine Smith, Sylvia McHugh—Gordon L'Heureux.
Sleepy Time—Marjorie Gorrill.
Playful Kittens—Herbie Guttman.
The Big Bass String—Teddy Egles.
March of the Shadows—Jack Richardson.
The Sailor Dance—Bobby Sather.
Duet—Minnie G. Peggy Somerville and Miss Violet Hyde.
La Doince a Mobile—Opal Snyderman.
Lullaby—Florence Jeffers.
The Rosebush—Peggy Somerville.
The King March—Lawrence H. Hering.
Songs—Land of Long Ago and April Gals—Miss Florence Waterman.
Pipe and Bowl—Otto Jeffers.
Trojan March—Raymond D'Heffer.
Eureka—Winnie Gorrill.
Jewel Dance—Elizabeth Gorrill.
Group of songs—In the Garden of Morrow and When I'm With You—Miss Florence Waterman.
Fairies Waltz—Peggy Yates.
Les Masquades—Margaret Beatty.
The Two Larks—Elizabeth Gorrill.
Les Myrtles—Jeannette Guttman.
Dart a Garden Party—Elizabeth Chase and Jeannette Guttman.
God Save The King.

TOWN AND DISTRICT

Ashtu Naave, with the assistance of a number of his friends, moved his residence from Peavine Farm to his new location some six or seven miles north west of town. He desires to place the entire house and property for their free advice and show grounds expanded during the house moving activities. Ashtu has not yet decided on a name for his new farm.

You have seen the Gleichen horse ball boys defeat the Chicago Colored team. You have seen the Gleichen better than the late Mr. Pettit, being one of the first of the real cowboys of the district who until the end kept a string of ten saddle horses, and knowing every brand, was a real find to those having stock on the open range. Mr. Pettit was 53 years of age and leaves a wife and three children in Dallas, Texas, to whom the friends here extend sincere sympathy.

A Robertson & Co. of Gleichen have secured the contract to rebuild the Church of the Brethren and interment took place in the Arrowood cemetery. The funeral was in charge of Geo. W. Evans.

A few days ago a young lady (anonymously) visited this office and in course of conversation relative to her profession stated: "I get sick of men and their ways. They are messy they sling paint all over the office and tell about the desks and chairs in such undignified attitudes. They smoke and talk. We have fourteen men who come into my office, and only one of the fourteen know the courtesy to ask me if cigar smoke is offensive to me. Then they are silly; they talk such nonsense as sixteen year old girls would be guilty of. It is all about neckties, new ties, ladies, good dinners, and so on. If you think man is the superior animal, you just spend some time in a business office with assorted ideas of him, and you will see. I am beginning to believe that a trusky novel is better than the society of the average man, and equally improving."

"Was that brute who struck his wife punished in court?" "No! When it came to trial the woman wouldn't acknowledge herself beaten."

Customer—I see you are forbidden here? Waitress—Lord bless you sir, so were apples in the Garden of Eden.

HOCKEY CLUB ELECT OFFICERS OTHER BUSINESS

A very enthusiastic hockey meeting was held in the Bank of Commerce when plans to a great extent were arranged for the next season. There were about 25 fans and hockey players present.

President McConnell opened the proceedings by calling on Secretary Gorrill to read the minutes of the last meeting which were adopted as read.

The next item of business was the election of officers and resulted as follows:

Jack President, Geo. H. Gooderham, President, J. W. Brown.
Business Manager, Wm. McConnell.
Sec. Treas., W. Salmistrater.
Executive—Al. Wilson and Dr. C. R. McIntyre.

There was quite a discussion about the club and finally it was agreed that there was two separate jobs and a coach and manager will be appointed at a meeting to be called at some future date.

The executive was instructed to look into the matter of raising money to cover the deficit of the hockey team last winter which amounts to \$44.62.

At present agreed to get behind the executive in whatever they may decide to do. It was also decided that Jack Moss, former manager of the team, should be asked to leave his family there that some sort of a social evening and set off take place.

W. Salmistrater the new secretary thought that there should be an auditor appointed and on motion of Dr. Brown and C. W. Halshead, W. Salmistrater was elected to the job. The meeting then adjourned after a hearty about one and half hours.

ROCK GARDENS ON THE PRAIRIES

(Experimental Farm Note)

The rock has come to the prairies as it comes where winter's cold and summer's heat are less severe, but is a beautiful sign indicating a love of plant life and a desire for artistic expression in planting effects.

Primarily conceived as a home for many plants the prairie rock garden will prove an inhospitable domicile for many of the more exacting of these mountain or high altitude plants, but will be furnished with a plant list to assist in making them fit to their geographical position. Fortunately, there are many hardy plants, which by their structure and character, are admirably suited to be set among rocks, and will look and feel at home in such a position. The choice of plants must be governed by the size of the rock garden to be planted. In a general way the material used should be dwarf or trailing in form, and bushy. The planting should be in drifts or in masses proportionate in size to that of the rock garden. On large structures larger plants may be used. A group of flowering plants to the base of a big rock or against the face of a cliff would look right but entirely out of place in a small garden.

Except for a few general rules to be observed space will be left for going into details regarding the construction of a rock garden. The site chosen should be high and well drained. If not, drainage must be provided by a foot of cinders or brick bats and cinders. The rocks used should be as large as possible, light in character and weathered in appearance. Placing should be informal and natural with no attempt to create grotesque effects. Very often too many rocks are used. The best should be to create ledges and pockets for colonies of such subject.

To keep abreast of the times and to set the merits of plant material suitable for this form of cultivation, the part of a rock garden was built at Modern Experimental Station, in the fall of 1931 and planted in the spring of 1932. The rocks were gathered from the fields and roadsides in the immediate hillside vicinity, and consisted mostly of granite boulders crumbling with age, and weather-worn.

ECHOES OF GLEICHEN TWENTY YEARS AGO

The box social and dance at Cluny proved most successful and netted the baseball club the sum of \$64.50.

The land surrendered by the Blackfoot Indians is steadily increasing in value. W. R. McKie sold a quarter section last week at an advance of \$1900 on his purchase price without any improvements.

The fellow who prophesied that this would be a dry season will now have to make another guess.

The bazaar Friday, in aid of St. Victor's Church proved most successful, netting \$187.45. The following won prizes: Miss Dora Broseman, Mr. J. Chayer, Mrs. W. Ross, Mr. Watson. The bazaar was a success and the proceeds were used for the purpose of the bazaar.

The firm of Ross, Rowe & Rowe, has been awarded a keenly contested contract by the C. P. R. of 1-61,450 square feet of painting at various points.

THE GOLFER

Consider the golfer, for he is the son of Joy and the heart of his wife is in his hands. He is a man who is to be awakened but asleep at dawn and around the whole house. He awakens with the breakfast without complaint, and forthwith, himself at the foot within his locker. Mighty are his preparations and there is much rushing about amongst the women to find his things.

Optimism is his middle name, and his bright keenest contains no such word as "rain." The mind of his wife is at peace; for she knows where he is all day; and in the evening he is weary and goes to sleep after dinner. Whatever his wanderings and however long his absence, she feels no jealousy but saith: "Thank heaven he is safe."

The touch of liver knoweth him not, and dyspepsia is a stranger unto him. The sun lightens up his countenance, and his figure keeps its beauty. He lacketh not topic of conversation, and concerning his score, the truth is not in him.

He is happy in his folly, and wealth the smile that will not come off. And a smile of approval from his caddy, he findeth more thrilling than the smiles of blondes and of sirens. For every man must have his folly, wherein he worketh off the original sin that is within him. And some choose wine and some tobacco, and some flirtations.

But the golfer exceeded them all in wisdom; then blessed be the driver and the putter, and the mallet, and the niblick, and the little white rubber ball; for wherever golf is, there is sweetness and light—a good digestion.

And no man can be both a good golfer and a bad husband.

SCOUT NEWS

During the meeting of the Boy Scouts last week two softball teams were organized. The teams were captained by E. Lester who decided the line-up of the team as follows: E. Lester will be the pitcher with W. Lester available; Dennis Woods will be the receiving; the rest of the infield will consist of: B. MacCallum, 1st; S. Carreck, 2nd; W. Desjardins, 3rd; W. Lester, short stop; outfielders: G. K. Schmidt, left field; E. Michael, centre field; R. Desjardins, right field. The alternates are: S. Guttman, T. Severn and W. Bingham. The first game is scheduled for Thursday May 25th, at 8:30 p.m., at the Crystal diamond.

The plant material used was selected from the perennial borders and from nursery rows prepared in advance for the purpose. Plants of proven hardiness under ordinary cultivation were used as the foundation of the planting. Others of unknown hardiness were under test and will be recommended as their merits are established. Write to the Dominion Experimental Station, Morton, for a list of suitable plants.

Here and There

Another sale of salmon eagles (leaves) is announced in New Brunswick for the famous waters, or the Upsalquitch River which will be leased to the highest bidder at a sale to be held in Fredericton, April 27. The leaves will be for ten years from March 1, 1932.

Canadian railway salaries have experienced severe cuts over the past few years. This has applied to officers as well as to the workers on the trains and along the lines. The recently issued annual report of the C. P. R. announced that E. W. Beatty, Chairman and President of the C. P. R., had instituted a special cut of 15 per cent. for himself and the Company's directors. This makes a total cut of 25% for them since the decline in earnings began.

Nipigon River's famous speckled trout don't know if yet but the lake has gone forth, that non-residents shall pay only \$5.00 for an annual fishing license. Further, Nipigon rules will offer their services this year for \$25.00 a week as against \$25.00 over 1932. These trout in the Nipigon pools have been in the hands at its mouth including St. Ignace, run to seven pounds and up.

Canadian Pacific liner Express of Japan recently hunc up a new speed record when she travelled from Vancouver to Honolulu in 10 days and 14 hours, eight hours and three minutes, clipping seven hours, 45 minutes from her last previous time for the voyage and much outdistancing the best mark for any other Pacific liner except the Empress of Canada.

The literary hit of the year has been made by Frederic Niven, Canadian author, living near Nelson, B.C., whose "Mrs. Barry" has been recently hailed by authorities as one of the most profound and powerful novels of the year. Mr. Niven, who thus breaks into the literary world, earlier in the century handled literature and freight for the Canadian Pacific Railway at Nelson.

H. F. Mathews, general manager, Canadian Pacific hotels in western Canada, with headquarters at Winnipeg, has been promoted general manager of the company's hotel system from coast to coast, with headquarters in Montreal, according to a recent announcement by E. W. Beatty, chairman and president of the railway.

It is necessary to go back to the year 1918 to find revenues of the Canadian railways on a level comparable with 1932. The following figures show that in 1932 compared with 1918:

Railway Operating Revenues	Decreased 6.5%
Railway Operating Expenses	Increased 20.9%
Net Revenue from Operations	Decreased 54.6%
Railway Tax Accruals	Increased 135.7%
Net Railway Operating Income	Decreased 54.3%
Railway Property Investment	Increased 34.6%
Rate of Return on Investment	Decreased 69.0%
Revenue Per Tonn-Mile	Decreased 23.3%
Revenue Per Passenger-Mile	Decreased 59.3%
Actual Gross Tonn-Miles	Decreased 17.3%
Payroll of Engine and Trainmen	Increased 31.3%
and Telegraphers	Increased 25.2%

During the meeting of the Boy Scouts last week two softball teams were organized. The teams were captained by E. Lester who decided the line-up of the team as follows: E. Lester will be the pitcher with W. Lester available; Dennis Woods will be the receiving; the rest of the infield will consist of: B. MacCallum, 1st; S. Carreck, 2nd; W. Desjardins, 3rd; W. Lester, short stop; outfielders: G. K. Schmidt, left field; E. Michael, centre field; R. Desjardins, right field. The alternates are: S. Guttman, T. Severn and W. Bingham. The first game is scheduled for Thursday May 25th, at 8:30 p.m., at the Crystal diamond.

GLEICHEN COMMUNITY HALL
2-SHOWS 7:30 and 9 p.m.

RAMSAY MERCANTILE LTD.

This week we are featuring Outing Shoes for Children, Misses and Ladies, also Boys and Youths, and we have the largest range of these in we have ever shown at new low prices

GREAT VALUES IN BOYS WAISTS
Boys waists, a splendid purchase sent us a few days ago by our bargain buyer in the east. Great values in well made stuff, size 12 to 14 per garment 50c and 65c

SUMMER WEIGHTS COMBINATIONS
Boys Combinations underwear in popular summer weights, sizes 22 to 32 priced per suit 65c
Men's per suit 95c up
These are new low prices

All sizes of Boys and Youths Tiedor pants for summer wear from \$1.00 per pair up. Boys Overhaul Pants in splendid G.W.G. qualities and All Sizes

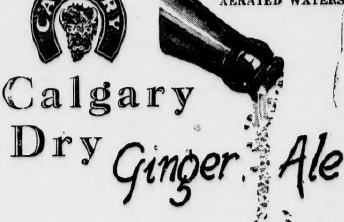

LADIES PRINTELLA DRESSES
New express shipments this week of Ladies Printella Dresses. These are good styles right up to the minute. Garment \$1.95 to \$3.95

Shipment new Corsets in 1933 latest ideas. New Brassiers, New Gloves and full range of the famous Kayser Hose to say nothing of the latest arrivals this week in Ladies Hats.

Very pretty sweaters for Ladies in this week's arrivals. New combination Colors. Priced \$1.95

Our grocery department will be as usual, Gleichen's Busy Centre for this week end. If you are not a Ramsay Grocery Customer you are missing our splendid Service and values. We pride our selves in both these points. They can't be beat.

Insist on the Genuine BUFFALO BRAND AERATED WATERS

When your thirst joins the spring-time parade . . .

ORANGE PEKOE BLEND

"Fresh from the Gardens"

A Warning To All Nations

In this column recently it was emphasized that the only effective and permanent way out of the existing depression, and the only method whereby world peace can be maintained and assured, is through international action. The fact was stressed that no one nation can, through its own policies and by its own efforts, bring prosperity to its people. Furthermore, that the solution of world problems today, or the domestic problems of individual countries, is not to be found in the overhauling of political systems and institutions, but in the removal of the abuses which have been allowed to creep in and develop.

That is, it was emphasized that the basic cause of the present depression, the constant dread of war, the social unrest prevailing, was to be found in the narrow nationalism which has afflicted the peoples of all countries like a universal plague; that it was this narrow nationalism, born out of suspicions and fear, which had destroyed the trade of all nations, weakened their monetary systems, led to the maintenance of excessive armaments, and resulted in the imposition of burdens of taxation beyond the ability of people to pay.

Foreshadowing some of our readers said to themselves: "It is all very true, but what can we in Canada do about it? We are only 19,000,000 of people; we are not regarded as world power; although we are a not insignificant part of a great world power, the British Commonwealth of Nations; as a Dominion, however, we can do little to influence world opinion and action; must we, therefore, continue to suffer until other nations forget their suspicions and fears and make up their minds to be sensible; is there nothing we can do to help ourselves?"

There are, of course, many minor matters of policy to which Canadians can direct their attention and bring about certain domestic readjustments and improvements. But the basic cause of the trouble is beyond our individual control; it is international in its cause and scope, and it must be dealt with internationally—not by one but by all nations. For example, Canada has just negotiated a new trade treaty with France in an endeavor to improve trade relations between the two countries. Above all, the Canadian government has just announced a new policy in regard to the world economy. Canada has just announced a new policy in regard to the world economy. Canada has just announced a new policy in regard to the world economy.

There are, of course, many minor matters of policy to which Canadians can direct their attention and bring about certain domestic readjustments and improvements. But the basic cause of the trouble is beyond our individual control; it is international in its cause and scope, and it must be dealt with internationally—not by one but by all nations. For example, Canada has just negotiated a new trade treaty with France in an endeavor to improve trade relations between the two countries. Above all, the Canadian government has just announced a new policy in regard to the world economy.

We would like to reproduce that message in full, but space will not permit. Having already succeeded in bringing about a world tariff treaty preceding the assembling of the London Conference, President Roosevelt, in his message called for a further trade providing that all armed troops withdrawn should hereafter cross any frontier save when a neighbor had offended by breaking her armament agreements. As an immediate goal, the President asked success in the London Conference and the London Economic Conference. He called for an agreement that no nation shall increase its existing armaments; he advocated the abolition of all offensive weapons of war.

Concluding his message, President Roosevelt said: "Common sense points out that if any strong nation refuses to join with genuine sincerity in these concerted efforts for political and economic peace, the one at Geneva and the other at London, progress can be obstructed and ultimately blocked. In such event the divided world, seeking both forms of peace, will know that the possibility of future peace is large that no nation assume such a responsibility, and that all the nations joined in these great conferences translate their professed policies into action. This is the way to political and economic peace. I trust that your government will join in the fulfillment of these hopes."

Canada will be represented at the London Economic Conference by Premier Bennett and he will have the united support of 10,000,000 Canadians in standing unitedly with President Roosevelt and Premier Ramsay MacDonald in their great effort to save the world. That Mr. Bennett will take such a stand there is no question. He can be depended upon, as any Canadian prime minister could be depended upon, to throw the whole weight of this Dominion's influence into the scale for world peace, economic and political.

In this great effort the United States and Canada will be one. There will be no dividing lines between them. For over a century neither country has maintained any offensive force against the other, and because such offensive forces did not exist there was no need for either country to erect fortifications along the boundary or maintain defensive forces. Remove the danger of offence, as President Roosevelt said in his message, and no need exists for defensive forces.

Canada and the United States offer an object lesson to the world. Let that object lesson be driven home to the nations of Europe. The countries of North America are not suspicious of each other, do not fear each other, and prosper when the other prospers. The same can be made true of Europe. The youthful nations of the new world are showing the way to the more ancient nations of the old world. May they succeed in their great task.

No Market For Cars

Taxes on gasoline amounting to twenty-four cents a gallon, plus other fees, have resulted in a shortage of new automobile owners turning in their license plates in three months. The second-hand car market is glutted and new cars can't be sold.

According To Law

George Warner, of no home, was sent to prison for two years at Millstream on a charge of molesting a minor. Next day it was found that, in law, he had not broken into the house. He had just ruined a widow already partly open. He was set free.

Was So Short Of Breath Could Not Lie Down To Sleep

Mrs. P. J. Chersoff, Shaver, B.C., writes: "I had been as troubled with asthma, bronchitis, and other ailments for many years. I could not sleep at night. I tried all kinds of medicine, but could get no relief until I had taken the box of Milburn's Heart and Nerve Pills, and since then I have felt better in every way."

See also all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Good Thing For World

If China and Japan Would Form An Entente
A Sino-Japanese entente would be no bad thing for the world. China and Japan have been at odds for so long that the narrow nationalism which has afflicted the peoples of all countries like a universal plague; that it was this narrow nationalism, born out of suspicions and fear, which had destroyed the trade of all nations, weakened their monetary systems, led to the maintenance of excessive armaments, and resulted in the imposition of burdens of taxation beyond the ability of people to pay.

Greenland Sinking Into Sea

Settlements Of Early Vikings Now
Greenland is sinking into the ocean. Professor Vogt of Norway Technical University, Trondheim, says the sinking is shown plainly, and takes place at the rate of 53 centimeters a century.

In the summer of 1931, Professor Vogt headed an expedition to southern Greenland. Measuring the shoreline and comparing the results with the measures of other expeditions, he discovered that the 2,500 meters glacier, which covers the big island, is now being removed, the board stated.

It is understood the board is watching progress of legislation now before parliament. The sinking is shown plainly, and takes place at the rate of 53 centimeters a century.

Statement of the early Norwegian vikings are today covered by water. The burial ground of the vikings at Ryknes is an evidence for the correctness of his theory, Professor Vogt declared.

Harrowing Tale

Master Locksmith Trapped In Sunken Vessel At Bottom Of North Sea
Charles Courtney, master locksmith, was back in New York from his mystery trip to Europe, his hair wild, his eyes staring, his face pale, in a plaster cast and his right side swathed in bandages.

Bill visibly nervous when he arrived, he explained that he had been harrowing tale of being trapped for nearly an hour at the bottom of the North Sea in search for treasure aboard the British cruiser "Hampshire," sunk with Earl Kitchener in the war.

There was jubilation when the crew of the salvage ship when 411,000 pounds was offered for the wreck. Plans were immediately made for further search for the 12,000,000 gold reputedly carried by H.M.S. Hampshire.

No Pay Cut

Judges Over 75 Years Of Age May Continue On Bench At Regular Salaries
Judges of the superior and supreme courts of the provinces who are over 75 years of age may continue on the bench at their regular salaries.

The bill designed to make such judges retire on pension at that age or, if they continued in office, to have their salaries reduced to what their pension would be, was defeated in the senate on second reading by a vote of 17 to 21.

All the Liberal senators present voted against the measure, as did three Conservatives, Senators A. D. McKee, J. S. McLean and C. P. Brown.

The bill had already passed the House as a government measure. The bill was debated in the senate, when A. Allen Aylsworth opposed it as a breach of faith.

Boy Scoops "Copper Trail"

Uncover 4,500 Feet On Saskatoon Streets and Netted Boys \$738.75
Saskatoon's boy scouts' "copper trail" set off method of raising money for the boys' camp, netted 4,500 feet of copper, amounting to \$738.75.

They found there were more small coppers in existence than large ones. While less was paid for the two streets and the people placed their donations on them. Shovels were used to scoop them up at the end of the day. There were 38,405 small ones and 1,122 large ones, weighing a total of 604.06 pounds. There were only 23 coins of doubtful value.

The biggest monument in the world is being erected in Germany.

Runs Upstairs At 92

Daughter's Pride In Active Father

"I feel in duty bound," writes Mrs. J. W. to express my gratitude for the marvelous results of the healthy living which I have followed. They should really be called "Miracles." I am ninety-two years old and I feel as fit as a fiddle. I can jump about and run up and down stairs as easily as I can get up and down. I feel as fit as a fiddle. I can jump about and run up and down stairs as easily as I can get up and down.

Most people grow old long before their time because they neglect one of the most important things in life—health. They get into bad habits and then they start getting old every day. I feel as fit as a fiddle. I can jump about and run up and down stairs as easily as I can get up and down.

Lake Freight Situation

Order Fixing the Maximum Rate Is Suspended

Pending further consideration of the lake freight situation, the board of grain rates has suspended an order fixing the maximum rate for carrying wheat from the head of the lakes to Montreal, Sorel and Quebec, at six cents per bushel. The order was issued on May 5.

The order was made to offset disturbance between a six-cent rate to Sorel and Quebec and 6 1/2 cent rate to Montreal. The board has now been removed, the board stated. It is understood the board is watching progress of legislation now before parliament.

Canadian Goat Society Holds Annual Meeting

Inquiries Received Indicate Good Demand From Prairie Provinces

The Canadian Goat Society held its 1932 annual meeting recently in Victoria, B.C., with representative breeders in attendance. It was shown that though business had been quiet during the past year, registrations and transfers of pedigrees of pure bred stock had been well maintained and membership showed a slight increase.

The chief business of the meeting was the adoption of a new constitution embodying the requirements of the new Live Stock Pedigree Act. Judging by enquiries already received from the prairie provinces there is a good demand for goats, but the price offered is so low that there is little in the business.

Relay On Prairie West

Greatest Influx Of Settlers Occurred When Wheat Prices Were Low

"While it is true that all agricultural prices are still away below the figures of a few years ago, may I remind you that the prairie west received its greatest influx of settlement in the pre-war decade with wheat prices ranging from 65 cents to \$1.60 per bushel," declared John M. Ingle, managing-director of The Edmonton Journal, in an address before the annual meeting of the British Columbia division of the Canadian Manufacturers' Association.

Russia Out For Record

The Soviet for air and chemical defence in Moscow, Russia, is planning an ascent into the stratosphere. Many hope to better the record of Professor August Piccard, who has attained heights of more than ten miles in two ascents.

Where the Blame Lies

People Responsible For Large Part Of Recent Unemployment

While we must still insist upon the urgent need for consumption of the strictest economy by all public authorities, it is only honest to admit the fact that the people are responsible for a large part of the unemployment. Governments have had to do money with which to provide the unemployed with food and shelter, and to a large extent they could get that money only from the pockets of the people. —Quebec Chronicle-Telegraph.

Cannot Be Washed

Apollonius, Louisiana is the only specimen in the Carnegie Museum, Pittsburgh, that can't be washed with water. Attendants annually, at T T water. Attendants annually that his 85 feet of prehistoric bones and then in 1931. He is said to be the world's most perfect specimen of dinosaur.

Your Liver's Making You Feel Out Of Sorts

Wake up your Liver

—No Calumet needed

When you feel depressed, sour on life, or when you are out of sorts, it is your liver that is making you feel that way. It is the liver that is the seat of the emotions and the seat of the passions. It is the liver that is the seat of the emotions and the seat of the passions.

First Aid Is Best Plan

Hashing Accident Victims To Hospital Not Always Advisable

Warning that speed to save life often results in death instead, and that the "first-aid-and-transport" of some of the travelling public take an annual toll of lives, was made by Coroner Gordon A. Sinclair here when presiding over the inquest into the death of Harry Gordon Keating of Hamilton, who was fatally injured when his auto was in a collision with a horse on the highway near Grimsby. An open verdict was returned.

The coroner pointed out that often after the accident, "a passing automobilist, who has no personal interest in the injured, rushes him to a hospital not knowing the condition or extent of the man's injuries often resulting in irreparable damage as far as a functional recovery is concerned and all too often in death."

"Let me say that more people would have a greater chance of recovery if the simple rules and procedure of first aid for combating hemorrhage and shock and caring for fractures were applied at or near the scene of the accident. The world is more than one can possibly hope for by subjecting an already ill patient to the stress and strain involved in even the most luxurious form of transportation to a recognized hospital where only similar procedure is followed."

Heavy Wheat Shipments

Wheat Cargoes Through Panama Canal Highest Since 1920

In November, 1932, outbound wheat shipments through the Panama Canal aggregated 253,246 tons, constituting the highest tonnage for wheat from the Pacific to the Atlantic since February, 1929. During December, 1932, shipments continued to rise, a total of 337,021 tons having been shipped during that month.

Shipments in December, 1932, were valued at \$1,420,000, or 1932, when 432,000 tons were shipped. In January and February shipments fell off, the tonnage in March having been 262,348 tons and 211,628 respectively. This indicates the tapering off of a heavy seasonal movement. In both of these months, however, wheat shipments were greater than in the corresponding months in 1932.

Approximately 97 per cent. of the recent movement of wheat through the canal in the current fiscal year has been shipments from Canada to Europe. Wheat shipments through the canal from Canada in the first eight months of the fiscal year 1932 were \$39,758 tons. In the corresponding period of 1933, the tonnage was 1,466,317, or 625,579 more than the 1932 figure.—Panama Canal Record.

Has New Plane

Prince Of Wales Has One Of The Most Powerful Planes In The World

The Prince of Wales used his new airplane for the first time recently when he flew from Windsor to Caserta, Italy, in the current fiscal year. The Order of St. John of Jerusalem was held.

His newest plane—he now owns four—is a monoplane and accommodates 10 passengers. It is one of the fastest and most luxurious planes of the world, and has a maximum speed of 140 miles an hour. The plane is equipped with concussion parachutes which fall on a passenger's lap when an emergency button is pressed.

Summer Cruises

Interesting Sea Voyages Planned By Cunard and Anchor Lines

No less than 23 summer cruises have been scheduled by the Cunard and Anchor Lines for this season. These cruises will all sail from New York and the services will use all of the Lines' steamers.

The "Francis" celebrated for her World Cruises will make two cruises to the Canadian North Cape and one to the South, the first sailing from New York on July 26th. The itinerary includes Saguenay River, Quebec, Murray Bay, and Bermuda. This cruise will be repeated on August 2nd, each one called "The World Cruise."

The "Mauretania" will make five fast cruises to the West Indies this summer, sailing from New York on July 8th, 22nd, August 5th, 19th, and September 2nd. Each cruise will last 12 1/2 days and cover 5,200 miles. The ports visited will include Port of Spain, Trinidad, La Guayra, Caracas, Venezuela, Willemstad, Curacao, Panama, Panama, and Havana, Cuba. The "Mauretania" skirts the Leeward and Windward Islands on her way to Trinidad.

The annual North Cape cruise operated in connection with Raymond and Whittaker will sail from New York on July 1st, calling at Iceland, Reykjavik, Hammerfest, Norwegian fjords, Bergen, Oslo, Copenhagen, Zepet, Kibby, Stockholm, Leningrad, and other ports in the Baltic Sea, Germany, and Cherbourg. The cruise lasts 42 days in the "Caristina."

The "Aquitania" is also scheduled for a couple of week-end cruises to New York, the first taking place the weekend of the 4th and 5th of July and the second for the Labour Day week-end. New York will be the starting point for a 32-day round-trip to Hamburg for Berlin, Rostock, and other ports in the Baltic Sea, Germany, and Cherbourg. The cruise lasts 42 days in the "Caristina."

The "Aquitania" is also scheduled for a couple of week-end cruises to New York, the first taking place the weekend of the 4th and 5th of July and the second for the Labour Day week-end. Indian Population Increasing

Better Health Measures Taken To Control Disease

There are about 16,000 Indians in Canada, and according to Dr. E. L. Stone, director of the medical service of the Department of Indian Affairs, their number is increasing. This fact is contrary to many statements and to general belief, and is due to the better health conditions which have prevailed during the past few years.

At present there are two very aggressive campaigns in effect, one against smallpox and one against trachoma, besides the general policy of maintaining careful and adequate services in the form of hospitals, day nurseries, and agency rationing to prevent malnutrition. The prevention of disease is playing an important part as its cure; and though Indians are especially susceptible to certain diseases, such as tuberculosis in its many forms, influenza, and pneumonia, they are having noticeably good results.

While there may be sentimental help being given to Indians, as even more obvious reason is the practicality of keeping a high standard of health over no incalculable damage to Canada. Great numbers of Indians are scattered across the Northwest which is now coming under intensive economic development, and the importance of eliminating the danger of widespread epidemics is only common sense. So the work of the medical service of the Department of Indian Affairs deserves recognition; and because of the inherent difficulties in pressing on backward peoples the need of hygienic safeguards, it deserves sympathy—Winning Free Press.

Times Have Changed

Sectionalism Between Europe and India Practically Broken Down

A century ago the European who had an Indian friend was looked on as not quite normal, a man to beware of, and as an Indian who had a European friend may have been similarly looked askance at. But there have been changes. The increasing association of Europeans and Indians in the professions, business and the services, the competence of Indians in adjusting themselves to the culture and ways of Europe, the amazing discovery of it must have been a tremendous shock to the Europeans on whom it first dawned: that the Indian individual is capable of great achievement in many spheres, even in those noted upon as especially European, have modified the social life of India by breaking down the old sectionalism to a marked extent.—Glasgow Standard.

Life's Hardest Battle

It is much easier to act firmly and stand up to a strong impulse than it is to restrain an impulse when called upon to do so. Of all the battles of life there is not one that requires so much real courage as the battle of self, which every civilized person finds it frequently necessary to wage.

During a forest fire recently near Melbourne, Australia, the fire fighters were directed by radio from an aeroplane.

Never Lets Client Down

Lloyd's Cover Every conceivable Insurance Risk and Always Pay
Within a few hours of the French luxury liner "Atlantique" becoming a total wreck, Lloyd's had paid the insured value. The total commitments of the British insurers in this case amounted to about two million pounds. Lloyd's paid up without turning a hair, and not one underwriter or insurance company having "business" on the vessel was anywhere embarrassed. In the case of such huge risks the insurance may be as many as a thousands hands, for large numbers of companies responsible to Lloyd's underwriters will accept part of the risk, and then they themselves may part with a portion of their commitment. Thus, when a call is made, the insured figure is spread through so many hands that only comparatively small sums have to be paid by each company.

Originally, Lloyd's underwriters covered only marine insurance, but nowadays every conceivable insurance is taken— from the risk of losing the loss of a football club through bad weather, to the loss to a man's business if a royalty dies. All Lloyd's underwriters have to set aside very substantial sums of money as proof of their financial stability. And it is because Lloyd's has never let a client down, though the risk is £100,000, that the service's insurance business comes to London. Why are underwriters so called? It is because they write their names under the insurance policy, as taking the risk. Even a motor-car policy, taken out by Lloyd's, for instance, will contain the names of all those insurers holding the policy, and each will contribute perhaps 50 per cent, and the twenty who take the remaining 40 per cent.

Cannot Stand Captivity

Mokibingbird Feeds Poisoned Berries To Offspring In Cage

When I was a boy in Canada I was cured forever of birding by seeing a bird named Mokibingbird, in God Housekeeping. Not content with hearing mokibingbirds sing from the cedars I determined to cage a young one and thus have a young master all my own.

On his second day in the cage I saw his mother fly to him with food in her bill. This attention pleased me for surely the mother knew how to feed her child better than I did. The following morning my pathetic little captive was dead. When I took this experience to Arthur Wayne, the renowned ornithologist, he said:

"A mother mokibingbird, finding her young in a cage, will sometimes think it poisoned berries. She thinks it is better for one she loves to die rather than to live in captivity."

Decline In Receipts From Customs Duties

Collections Last Month Less Than In April, 1932

A net increase of \$8,248.12 in customs and excise revenue for April, first month of the new fiscal year, as compared with April, 1932, is shown in a statement issued by the department of national revenue.

The greatest decline is in receipts from customs duties. Total customs and excise revenue for April, 1933, were \$5,824,192. Excise taxes yielded \$2,431,718 in April, a reduction of \$268,756. The revenues from excise duties was \$2,392,478 or \$750,940 less than in April, 1932.

From income tax \$4,868,323 was collected during April, 1933, compared with \$5,409,235 in April 1932. This was a decrease of \$540,912.

A Scientific Curiosity

Largest Microscope Will Be Exhibited At Chicago Fair

The world's largest microscope, standing seven feet high and built exactly to scale, will be one of the outstanding scientific curiosities at the Century of Progress Exposition in Chicago. The instrument, to be exhibited by a Rochester, N.Y., optical company, will be the only one of its kind in existence, and will show visitors on the external features of these precise instruments which have been responsible in large measure, for conquering many forms of virulent disease.

Old Habit Revived

Revival of popularity of snuff has become noticeable in England. Farmers are working overtime to cope with the sudden demand for snuff from London, but from their England and Scotland. In West End they, where smoking is not permitted, snuff has become a crime.

The grading of food commodities by the Canadian Government takes the guesswork out of buying.

Trade Is Improving

Auto Sales In Saskatchewan Have Increased By Fifty Per Cent
Trade in general is improving in Saskatchewan. Here is the result of a round-up in Regina, Saskatchewan. Motor cars and smaller cities: Auto sales up to 50 per cent better. Service stations—25 per cent better. Grain stores, brokers—much better. Mail order trade—more volume. Wholesale groceries—better volume. Hardware—improvement.

The provincial government reports a larger number of auto licenses issued compared with the same period in 1932. For this year is 21,351 with 21,311 in 1932. Increases are shown in every type of car used.

To assist farmers in drought areas of companies have arranged a \$250,000 credit with the provincial government so those farmers can obtain their seedling machinery fuel.

One of the largest farm transactions that has taken place in recent years occurred in the northern part of the province when the 3400-acre French farm was purchased by Arthur Rowell and his two sons. They have acquired the largest farm in the municipality. It is also the best in 1932. For this year is 21,351 with 21,311 in 1932. Increases are shown in every type of car used.

A \$10,000 fence factory is being constructed in Regina which will require another \$10,000 in equipment. It plans to produce a fence of iron and wire of various sizes and can be rolled up and moved.

Created Their Own Jobs

Many Unemployed Find Paying Work Close To Home

Charles M. Schwab, chairman of the board of the Bethlehem Steel Corporation, tells the Pennsylvania Society that he looks for the return of normal times for a while. "News papers over the country have for some months been printing bright hopes for the future of the unemployed men and women who have been doing likewise in a very literal and successful way. In their own neighborhoods they have created unusual and remunerative jobs, such as a cleaning wall paper, repairing window shades, fixing leaky faucets and scores of other minor but necessary tasks. They have achieved their own return to normal times by looking not far away."

Loses Its Identity

Gulf Stream Merges With Ocean Beyond 40th Parallel

The Gulf stream flows from the coast of Florida and the Bahamas, and then northward along the American coast, its width, in the narrowest part, is about 50 miles and its depth some 2,000 feet. After it has passed between the Bermuda and the coast of Carolina, it is divided into several streams (called fastness deep and the Labrador current) and the African deep, to meet their fate almost in sight of the lights of home. Except for the cold light of a desperate adventure, most of the arctic expeditions have been local news. England's big dirigibles perish over the waters of the Atlantic, and the Gulf stream merges with the ocean beyond 40th parallel of north latitude and the meridian 60 degrees west, the Gulf stream can no longer be distinguished from the rest of the ocean drift by temperature, color, salinity or otherwise. It is lost in the general drift of warm water from the southwestern Atlantic toward Europe—a general phenomenon having little or nothing to do with the Gulf stream proper.

A Full Vocabulary

A good story the other day concerns Her Remarque, the author of "All Quiet on the Western Front," and a pretty American girl to whom he was introduced in Berlin.

The American, speaking in German, asked Remarque why he had come drifting by himself. His answer was that he knew only a few sentences in English.

"What are the sentences?" inquired the German.

Remarque, speaking slowly in somewhat guttural English, said: "How do you do? I love you. Forgive me. Forgive me. I am not a peasant."

"Silen alive!" ejaculated the girl. "Why, with that vocabulary you could tour my country from Maine to California."

Sounds Like Cannibalism

"My dear, listen to this," gasped an elderly English woman who was travelling with her husband for the first time in one of the Western States. "On this hill of fate it says 'Eskimo Indians paddling.' Can you see that? It is possible in a country which claimed to be civilized!"

Sledging is to have an air draft.

Chance For Canada

Exporters Of Canned Goods Should Go After British Market
It is surprising to find so few signs of enterprise shown by Canadian exporters of canned goods to the British market. With so much in their favor, they should be using every effort to get their goods into the British market which is still largely supplied by U.S. products. In regard to certain vegetables and fruits, the Canadian market is not so quickly absorbing the domestic market and this is achieved on quality alone, but there still remains a very large market for those fruits and vegetables which the Canadian exporter brings to a perfection not found in the Mother Country. All the great stores and shops in Great Britain are definitely willing to push the sale of Empire goods rather than foreign but nature does not seem to be competitive in both price and quality with the foreign product. The advantage of exchange which Canadian exporters at present enjoy over their U.S. competitors may not long continue, and it could seem short-sighted not to make the fullest use of the present favorable conditions—Canadian Exporters, England.

Interesting Historical Fact

Germany Once Made Jews Pay For Their Family Name

Of all the many grotesqueries perpetrated by the German Nazis during recent weeks none is more fantastic than the action of the national post office and telegraph departments in refusing to accept messages addressed to persons with obviously Jewish names. Cognomens must be altered to remove the Semitic flavor, is the ruling.

But for an interesting historical fact, this would seem merely a piece of typical Hitlerite bad temper and pettiness. In the late Middle Ages, when adoption of family names was found necessary and was made mandatory in most civilized countries, German princelings and officials saw a chance to put an over on the nose of Abraham, then as now hated for their financial peripatancy. So Jews were required to pay for the privilege of choosing their names. If they desired, they were assigned dignified, old-sounding words to call themselves by. As a result, many had become Sonnenheides, Silbersteins and Perlmutterbergs.

Now the Hitlerites are making them change again.—Detroit Saturday Night.

Air Tragedies Near Home

Large Number Of Accidents Have Occurred Close To Starting Point

Something of the irony of the soldier who escapes a thousand deaths in the trenches to die from stumbling over a kitchen chair is to be found in the casualty record of aviation. The first summer of aerial war, and the Italian, Greek and the African deep, to meet their fate almost in sight of the lights of home. Except for the cold light of a desperate adventure, most of the arctic expeditions have been local news. England's big dirigibles perish over the waters of the Atlantic, and the Gulf stream merges with the ocean beyond 40th parallel of north latitude and the meridian 60 degrees west, the Gulf stream can no longer be distinguished from the rest of the ocean drift by temperature, color, salinity or otherwise. It is lost in the general drift of warm water from the southwestern Atlantic toward Europe—a general phenomenon having little or nothing to do with the Gulf stream proper.

A Canadian Record

Man In Napone, Ontario, With Same First For 61 Years

What is believed to be a new Canadian record for longevity was established May 12 by Hamilton E. Loucks, who celebrated his 61st anniversary with the Gibbard Furniture shops of Napone, Ontario. "Hank" Loucks started in the Gibbard workshops in 1872 when John Gibbard, founder of the company, was its manager. Now, with the recent opening of the Gibbard shops as a general manager, Mr. Loucks has the unique experience of having worked under four generations of Gibbards.

Inchangers To Graduate

The first two inchangers to join the student body at Dalhousie University will be their degrees this year. They have just completed three years at one of the world's two schools which grant degrees in inchangers research. They became Bachelor of Science in Fisheries.

Sunday golf has been banned in Portland, Scotland.

Wonderful Rock Tower

Pillar In Northern Ontario Rises Seventy Feet Above Water
Throughout Canada are many curious natural formations which appeared to the Indians as evidence of the supernatural. Their imagination peered the vicinity of great falls, canyons and oddly shaped and placed rocks with spirits over which ruled their Manitou. As in more enlightened climes where gifts were offered to propitiate certain gods, the simple redmen offered up their treasures to secure the favor and guidance of the spirit which hovered over the virtual shrines which lay along his route. One of these places where Indian "medicine" was offered to Manitou stands in the rushing flood of the Missinibi river in Northern Ontario, a tower of rock known from time immemorial as Conja's House.

Near Conja's House the turbulent Missinibi is hemmed in by high walls of gneiss between which the swift dashes with tremendous velocity. Hard against the rocky walls of Conja's House the river hurls its might only to be divided, turned aside and evenly rushes on to tumble in foam and spray over the falls below. Acre in its still, stands this extraordinary columnar pillar rising 60 to 70 feet above the water. Travellers journeying by canoe down the Missinibi to Hudson Bay pass this awe inspiring monument of nature as they portage their boats 30 miles north of the railway. Standing on the brink of the steep-walled canyon, and gazing down on the huge rock, the present day traveller experiences some of the awe and wonder that seized the Indians at this place, and may feel some of the hidden things which the northland holds as its own.

THE RHYMING OPTIMIST

By Alice Michalson

ULTIMATE GOOD

The ultimate good will some day prevail. So believe that the righteous cannot fail; Believe in a scheme that is widely shared; And trust as a little child would trust In love and honor, in truth and love. And your days to the rhythm of your heart will all be shared.

The ultimate good, though you can not see; Sometimes, what the end of the road will be; Be sure always as you press ahead That somewhere the ridge has all been read; And hold in your thinking no shade of doubt.

That by someone the course has been charted out.

The ultimate good! How the wonder grows As trial by trial the years disrobe The heart of life, as a perfect rose From thorns and thorns and thorns and thorns; The ultimate good! As you pass by Be sure the ridge has all been read.

Canada Stands Fourth

Has One Motor Vehicle To Every 9.6

Canada, with one motor vehicle to every 9.6 persons, ranked fourth in density, in world countries in 1932, the United States leading with a density of one motor vehicle to every 5.1 persons, says a report issued by the Dominion Bureau of Statistics, Ontario, with 9.5 persons per motor vehicle, had the greatest density in Canada. British Columbia was second with 7.7 persons per motor vehicle.

Must Ask Many Questions

Official regulations for the Metropolitan Police, London, England, lay down as many as four hundred questions, any or all of which may have to be asked in the event of a fatal road accident happening on his beat.

The Modern Version

A small boy (more a film than a history) was "rehearsing" before his father an essay he had to write on Sir Walter Raleigh.

"Sir Walter wanted to keep in with the Queen," he said, "so he took off his jacket and threw it over some maid for her to walk on."

"Did he speak to Queen Elizabeth?" asked the father.

"Yes," came the unexpected reply. "He said, 'Oh, baby!'"

An Important Plan

Haverford Hall has announced that a scarab, or lucky symbol, which King Tutankhamen's grandfather gave his father attending his wedding about 1400 B.C., is the season's most important archaeological discovery of the century. An expedition to Egypt is planned to find the scarab.

LOW PRICED BUT UNDEMIABLE

GUARANTEED FOR 12 MONTHS

MADE BY Firestone

GUARANTEED FOR 12 MONTHS

These sturdy, long-wearing tires, made and guaranteed by Firestone, offer exceptional value. They have all the features of tires costing much more, including Gum-Dipped cord body and a deep, tough safety tread that grips the road in all kinds of weather. Warm tires are dangerous— you cannot afford to take chances with them—especially when you can buy Gladdified tires for little. Go to the nearest Firestone Dealer today and let him equip your car with these new-cut, long-wearing tires.

Buried Treasure

Expected To Be Able To Recover Huge Amount Belonging To Murdered Czar Of Russia

The London Herald reports that a treasure worth \$2,000,000, belonging to the murdered Czar Nicholas II and his family, is being recovered at Sverdlovsk, on the Asiatic side of the Ural Mountains.

The Czar's family was slain at Sverdlovsk, then known as Ekaterinburg, after the 1917 revolution.

The cache was known to the Soviet government of the sons of the overthrown Czar. The agent sent three representatives, one of whom was a London banker, to obtain the treasure.

The representatives were reported to have negotiated for 15 months with the Soviet Government with the result that the latter agreed to turn over one-fourth of the treasure.

The treasure is said to be buried at a considerable depth under a house where it was placed 10 years ago by a man now known in Russia. The Soviet government is said to have guaranteed safe conduct to Sverdlovsk.

The Herald reported discovery of the treasure was made but that it would not be dug up until the arrival of the man who buried it.

Gratitude consists in a watchful attention to the multitude of God's gifts, taken one by one. It fills us with a consciousness that God loves and cares for us even to the last vest and smallest need of life. It is a blessed thought that He has been laying His fatherly hands upon us, and always in benediction, even from our childhood. Every gift has its return of praise. It comes with an anxious desire to Him by the ascent of thanksgiving. And all our life is drawn up to the light of His countenance, and is filled with a gladness and serenity which only thankful hearts can know.—H. E. Manning.

When Buying Was An Experiment

"I'll try a pound of this," said your grandmother, "—if you are sure it's fresh."

That was sometime in the second hour of her morning's search for groceries. She went from one open barrel or open box to the next, along an unappetizing row of crackers, teas, cereals, dried fruits, lard and sugar—all in bulk. She shooed the flies away, looked at, touched and tasted each article suspiciously, and finally decided to buy or not to buy, as her judgement directed. She couldn't trust a servant to do it. It was a day's work in itself.

Today, in two minutes, you give the grocer your order. You know that everything you get will be fresh, pure, attractively and cleanly packed. Why? Because you asked for advertised brands.

Advertising has taken hours of hard labor out of every housewife's day, and lines of worry off her forehead. It has made the morning's marketing a matter of certainty instead of guesswork.

Do all of your buying this easier way—
read the advertisements!

Town & District

The town streets look much better since they were graded last week.

Miss J. A. Downie, of Gleichen has won the Strathmore Golf Club ladies trophy.

Rev. V. M. Gilbert occupied the pulpit of the North Hill United Church, Calgary last Sunday.

T. Scott the well known carpenter spent a day or so in town last week looking up his many friends.

Peter Downey has received word that he has passed all his exams by a wide margin at the university.

Mr. Gilbert has been invited by the Miss-Queensway congregations to speak on the Oxford Group next Sunday.

Mr. and Mrs. Levitt Ramsey of Calgary are holidaying at the home of Levitt's parents, Mr. and Mrs. J. A. Ramsay.

Rev. Rex Brown of North Hill United Church, Calgary occupied the pulpit of the local United Church last Sunday and spoke on Rural Life.

E. Parkin of Cumberland, Vancouver Island, B. C., spent a few days in town last week looking after his interests here. He is the owner of the Post Office block, having bought it several years ago.

The ladies of the United Church wish to thank all who contributed to the Tea and Sale last Saturday and especially Adjutant and Mrs. Sutherland for their assistance and the use of the building.

On Friday night a free recital was staged by the Gleichen school pupils who are entering in the festival at Strathmore. All parts were wonderfully well given. When considered at this has been accomplished in the last three months, the results are marvellous. We feel too much praise cannot be given Mr. Myers, who has had full charge of the music.

During the past week Eli Woods has been a busy man at the cemetery attending to plots and one thing another. The result is a decided improvement in certain parts of the cemetery, but much more remains to be done.

Several local business men interviewed state that business generally has improved in Gleichen the past few weeks and they look forward to a good summer trade. One stated that business was better than last year at this time. Another was quite pleased with the local trade and said he was happy and found his business much ahead of last year. Several others were too busy to stop long enough to give a statement or compare business with last year, but admitted that despite the depression they were doing a very good business and looked for improvement.

Further relief to holders of school lands in the province, whereby they have opportunity to retain possession of their lands purchased under the school lands sales agreements, in view of the abnormally low level of agricultural products, is announced. With respect to purchasers who believe themselves to be in a position to complete their sales contracts, but who under present conditions are finding difficulty in meeting payments the government announces that a purchaser making payment on account of interest out of the 1933 crop will be given additional credit of an equal amount on the books of the department, this credit to be applied first on account of current interest and then on account of arrears. In other words any payments on account of interest will have double value for the purchaser. This arrangement will be made retroactive to apply to payments made since the first of September, 1932, so as to include any payments on account of interest made out of the proceeds of the 1932 crop. In a comparatively very few cases where the credit so established will be in excess of current interest and arrears the balance will be applied on account of next year's interest. With respect to payments of principal under the agreements of sale, the purchasers will be billed as usual for the amounts due, but where hardship is likely to result, the government will not press for immediate payment of the sum due.

UNITED CHURCH

V. M. GILBERT, Minister.
Sunday May 28, 1933.
11:00 a.m. Church School.
7:30 p.m. worship. Rev. J. G. Brown, R. A., of Queensland will preach.

The Gleichen Flour Mill

Best Ideal Flour is becoming more popular every day. Townspeople have been using it almost exclusively ever since the mill opened and it is now being used by nearly every farmer in the Gleichen district. It is also being used to a considerable extent by towns and districts within a radius of forty miles from this centre, and the circle is gradually growing.

This mill is now running twelve hours a day and good milling wheat is being accepted in exchange for mill products.

The price of flour, bran and shorts is invariably based on the price allowed for wheat at the mill.

A wise husband makes his wife do what she wants to do.

TRUCKING

Have you any trucking to do? If so see me for specials.
Good mine run coal \$4.75 a ton.
Carriage on Indian coal \$1.40 per ton.

I handle Turner Valley gas in any quantity. Drive up to our modern filling station and try it.
